Instructions for Course Registration

(20200215)

1. The course registration system only opens at certain times, during which you can adjust your own curriculum management and select courses for the up-coming semester. The next opening time will be *February 20, 13:00 — February 26, 8:00 (China Standard Time)*.

2. When the system is open, there are two ways you can access to it:

1) Go to info.tsinghua.edu.cn, log in with your username (or student ID) and password; go to the "Study"(学习) section, and then find "Course Registration"(选课);

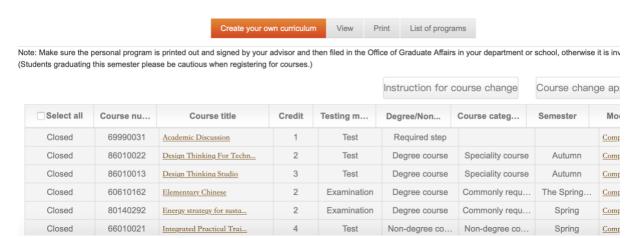

2) Go to zhjwxk.cic.tsinghua.edu.cn or zhjwxkyw.cic.tsinghua.edu.cn and log in with your student ID & password;
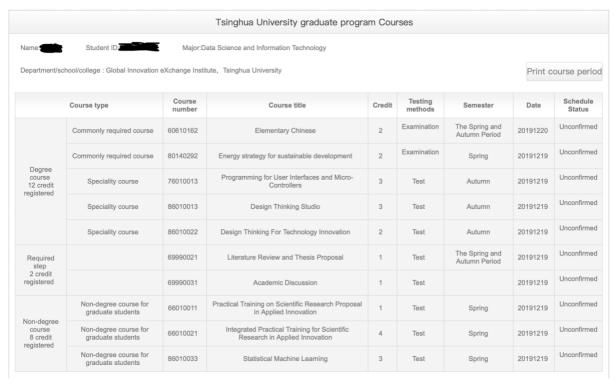

3. A student can only register for the courses that are already in his/her own curriculum (i.e. the courses you are going to take must be added into your own curriculum management first). Please make sure to adjust your curriculum according to program's guidelines.

| | Create your own curriculum | View | Print | List of programs |

Note: Make sure the personal program is printed out and signed by your advisor and then filed in the Office of Graduate Affairs in your department or school, otherwise it is inv
(Students graduating this semester please be cautious when registering for courses.)

The completed curriculum management list should be the same as below (for international students):

Tsinghua University graduate program Courses								

Name: ███ Student ID: ███ Major: Data Science and Information Technology

Department/school/college : Global Innovation eXchange Institute, Tsinghua University | Print course period |

	Course type	Course number	Course title	Credit	Testing methods	Semester	Date	Schedule Status
Degree course 12 credit registered	Commonly required course	60610162	Elementary Chinese	2	Examination	The Spring and Autumn Period	20191220	Unconfirmed
	Commonly required course	80140292	Energy strategy for sustainable development	2	Examination	Spring	20191219	Unconfirmed
	Speciality course	76010013	Programming for User Interfaces and Micro-Controllers	3	Test	Autumn	20191219	Unconfirmed
	Speciality course	86010013	Design Thinking Studio	3	Test	Autumn	20191219	Unconfirmed
	Speciality course	86010022	Design Thinking For Technology Innovation	2	Test	Autumn	20191219	Unconfirmed
Required step 2 credit registered		69990021	Literature Review and Thesis Proposal	1	Test	The Spring and Autumn Period	20191219	Unconfirmed
		69990031	Academic Discussion	1	Test		20191219	Unconfirmed
Non-degree course 8 credit registered	Non-degree course for graduate students	66010011	Practical Training on Scientific Research Proposal in Applied Innovation	1	Test	Spring	20191219	Unconfirmed
	Non-degree course for graduate students	66010021	Integrated Practical Training for Scientific Research in Applied Innovation	4	Test	Spring	20191219	Unconfirmed
	Non-degree course for graduate students	86010033	Statistical Machine Learning	3	Test	Spring	20191219	Unconfirmed

4. Register for a course by searching the course number or course title and adding the course to your course schedule.

For some new courses, you need to search them in the "Register for Non-degree courses" section, such as "Statistical Machine Learning".
